## BITUMEN EMULSION SPRAYER BS-200

The Polish company «TICAB» producing and selling asphalt road repair and maintenance equipment  
The equipment of our production is operated in 53 countries of the world, receiving positive feedback from users.

The bitumen emulsion sprayer (mini-tarser) is designed for priming asphalt pavement for small patching repairs, asphaltting adjacent areas, as well as for filling seams and cracks with bitumen emulsion.

The hand-held bitumen emulsion sprayer was designed specifically for economical and fast spraying of cold bitumen emulsions for sealing asphalt pavement of small areas. This device allows you to cover 400 square meters with bitumen emulsion in 1 hour of work, while consuming 200 liters of emulsion.

Bitumen Emulsion Sprayer BS-200 from TM TICAB is an optimal equipment for small patching repairs, as well as for road works in a limited space (yards, alleys) and for sealing areas and cracks. With compact overall dimension – only 140 \* 90 \* 100 cm, the manual asphalt sprayer BS-200 can process up to 400 m<sup>2</sup>

### SPECIFICATIONS:

Power block (Petrol Engine HONDA GX-160, air-cooled - 3.6 kWt).

Productivity – 400 m<sup>2</sup> per 1 hour.

Consumption of bitumen emulsion – 200 l/h.

Consumption of bitumen emulsion: 0.8 l/m<sup>2</sup>  
(maximum)

Hand Spraying Rod – 4 m.

Cleaning System – 3-level with diesel fuel.

Function of tank self-pumping.

Weight (without tank): 120 kg

Strong metal frame on wheels for easy movement.

**PRICE – 3780 euro Netto** (emulsion tank not included in the package)

(1-year warranty)

we have in stock Rzeszow
